REPLY TO:
ATTN OF: EW-92:Atchley

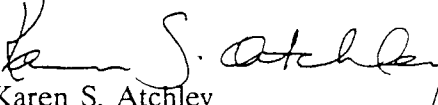

SUBJECT: REVIEW OF DRAFT RESPONSE TO THE DEPARTMENT OF ENERGY
HEADQUARTERS COMMENTS ON "THE SURFACE WATER IM/TRAP/EA FOR
OPERABLE UNIT NO. 2, JUNE 12, 1990," ROCKY FLATS PLANT

TO: J. C. Lehr, Acting Director, Northwestern Programs, EM-44, GTN

The responses to the Hazardous Waste Remedial Actions Program (HAZWRAP) comments on the referenced document were reviewed at your request. Attached is an integrated listing of the original comments, the resolution, and HAZWRAP remarks on the resolution.

It is encouraging that of the 53 specific comments that HAZWRAP made on its June 12 draft, 35 (67%) were adopted and will be incorporated into improvements in the revised document. It is a pleasure to know that we were able to provide a positive impact on the project. Questions concerning this review should be directed to Randy Harris at 615/435-3116 (FTS 355-3116).

Sincerely,

Karen S. Atchley
Waste Management Division
